#### **FACILITY OVERVIEW**

Hamilton County Public Health records for this landfill are limited. Therefore, the exact location of disposal is unknown. The only document relating to the site is a 1994 "Draft Phase I Environmental Site Assessment" completed by the Army Corp of Engineers on the property immediately west of this site. The assessment indicates *"the site was used to dump building materials, brush, refrigerators, etc."* Additionally, the report indicates the village *"is continuing to dump building materials, plastic, brush, and other miscellaneous debris"*. On the following page are several aerials showing filling in the general area marked on the map above.

**SITE INSPECTIONS**

The site was inspected by HCPH on October 23, 2020. No violations or nuisance conditions were observed on the site.

**SITE PRESENT DAY**

The area with historical filling is now occupied by a park with woods and an open-air shelter. A paved parking lot for the park and the village pool is also located in this area.
