

3.15.1 Old Burkhard Gravel Pit

Facility Name: Old Burkhard Gravel Pit
A.K.A.: None
Location: 12041 East Miami River Road
Parcel(s): 51002800079
Lat, Long: 39.307928 -84.637721
Region: Colerain Township, OH
Owner: Watson Gravel Inc
Operation (yrs): 1970s

FACILITY OVERVIEW

Hamilton County Public Health records for this landfill are limited. Therefore, it is unknown if waste was disposed of on the property or the exact location of disposal. Several complaints concerning the landfill were received in 1975. The complaints indicated the former gravel pit was being filled with lumber, drywall, trees, and trash. An Ohio EPA response to one of the complaints indicated that the C&DD fill was acceptable because it was excluded from current solid waste laws.

After review of aerials, it appears the property was mined in the 1960's and then the former gravel pit was filled from the 1970's through the 1990's. No other information is available as to the type of fill used at the site. Figure 3.15.1-A shows aerials from 1973 and 1986. Filling of the south and east areas of the former gravel pit is evident when comparing the two photos.

FIGURE 3.14.1-A

SITE PRESENT DAY

Today the property is owned by a mining company. The suspected area of fill contains material storage piles.
