

3.15.4 Onsite Disposal

In response to new regulations adopted by Ohio EPA in 1976, questionnaires were sent to industrial facilities across the county to determine which facilities were currently disposing of solid waste onsite. The following is a list of locations which responded that they were disposing of solid waste onsite along with a summary of the type of materials reported as being disposed of. HCPH has no other information on these sites that would clarify the types of materials disposed of or their exact location of disposal. Copies of the original questionnaires are maintained in HCPH's files.

Ohio Valley Goodwill –	10600 Springfield Pike; Woodlawn Perchloroethylene sludge from dry cleaner Sludge from furniture stripping
Shulte Corporation -	11450 Grooms Road; Blue Ash Wood pallets Corrugated boxes
Tex Style Inc -	440 Northland Boulevard; Forest Park Cloth, Paper, Cardboard
