or
Note DNI

(B) Monitor the function of sterilizers with the following:

- (1) Sterilization pouches with process indicator that changes color
- (2) Sterilization integrator used in each load
- (3) Weekly biological indicator tests submitted to lab
- (C) Documentation that indicators, integrators and biological tests were performed. Records are Maintained for 2 years and includes the following:
 - (1) Date and time the load was run
 - (2) Name of person who ran the load
 - (3) Results of integrator
 - (4) Report from lab on biological indicator test
- (C) Documentation kept in each patrons file for needles and instruments used on that patron.
- (D) New and replacement sterilizers shall be designed to sterilize hollow instruments and equipped with mechanical drying cycle
- (E) If wetness/moisture remains in/on pouches or if sterilizer malfunctions then instruments shall be considered contaminated and re-packaged/re-sterilized
- (F) Sterilized instruments remain in pouches until use
- (G) Malfunctioning sterilizer not used until repaired or replaced
- (H) Sterilized instruments stored in pouches, handled with gloves, stored in clean, dry, closed area. Re-sterilized if integrity of pouch is compromised.
- (I) Instruments re-sterilized after 1 year

Inspection Remarks

Facility is not currently authorized to use an autoclave to sterilize re-usable equipment.
 Facility must complete a spore test and receive verification that the test has passed.
 Autoclave log provided during the inspection contains all the required information except for time the load was ran.

Operator inquired about performing weekly monitoring in house however the rules require the test be submitted to a lab. Ensure one of these tests are completed, sent to the lab, and passed before using the autoclave to sterilize equipment.

Operators are using a program on the Ipad to record all client info. This program appears to collect all the required information however please submit a print out of the information collected for verification. In the interim duplicate paper copies are being completed.

Facility has paid for and received their 2017 license. However a application has not been completed for 2017. Please complete and submit the application form provided during the inspection.

A few sections of the IPCP need to be updated.
 Please review the entire plan and resubmit at a minimum sections 2 and 7.

Nick Siefker
