**February, 2013**

## Introduction

The following is a summary of all odor complaints received during 2012 related to Rumpke Sanitary Landfill located at 10795 Hughes Road in Colerain Township.

## Discussion

- For reference, comparative data from previous years is listed in the table below:

RUMPKE ODOR - DATA COMPARISON 2007 - 2012.							
		2012	2011	2010	2009	2008	2007
Complaints	# of Complaints Received	500	566	437	121	106	56
	# of Different Complainants	108	121	266	28	27	17
	% Anonymous Complaints	13	41	37	45	44	0
	% of Complaints at Residences	74	54	57	47	58	30
% Confirmed	By Responder in Vicinity	80	94	94	66	77	30
	By Responder at Complaint Location	27	45	33	28	24	ND
Odor Type %	Gas Odor	54	42	52	32	20	ND
	Garbage odor	5	4	9	36	55	ND
	Mixed odor	41	51	39	32	25	ND
	Leachate odor	0	3	ND	ND	ND	ND
Response Time	% Less than one Hour	94	92	84	76	84	ND

\*ND= No Data

- 
- 500 total complaints were received.
  - Refer to the attached graphs for comparisons and data.
  - The majority of initial response investigations continue to be conducted within the hour.
  - The distribution of confirmed odor types continues to be gas related odors or mixed gas/garbage odors. The percentage of solely garbage odors remained low at 5%.
  - The percentage of complaints at residences increased. In previous years roughly half of all complaints were at a residence; 74% were at a residence for this data period.
  - 29% were confirmed present at the specific reported complaint location.
  - Rumpke continues to serve as the initial responder to the majority of complaints; Rumpke has confirmed the presence of an offsite odor during 73% of their investigations.
  - While the number of odor complaints has trended slightly downward from 2011, overall, the number of complaints is similar per year since the beginning of the Phase5 reaction.
  - Complaints did not follow historical seasonal variations.
  - At times, there has been correlation between high/low complaint volumes and specific site activities/issues.

The subsurface event occurring in the north end of the landfill contributed to offsite odors beginning as early as September 2009. A comprehensive action plan to address odors and return operations to normal in the Phase V affected area continues to be implemented. A formal Odor Control Management Plan addressing the affected area, along with the facility in general, continues to be utilized by the facility.

Rumpke has attempted to address odors from the reaction with application and rework of clay soils, black plastic Odor Control Blanket (OCB), increasing flare capacity, and numerous odor neutralizing systems. The OCB now covers approximately 56 acres and a full time liner crew of 3 personnel has been added to maintain it.

Approximately 25-50 truckloads of the odorous leachate are hauled daily from a recently constructed load-out station. Improvements continue on leachate collection points which have been identified as point sources of odor on-site. Rumpke continues to consult with an outside odor control specialist for additional improvements to the odor situation. In the fourth quarter, two pilot projects were initiated involving additional blankets over the OCB to address odor breakthrough, including a geo-composite and EVOH geo-membrane.

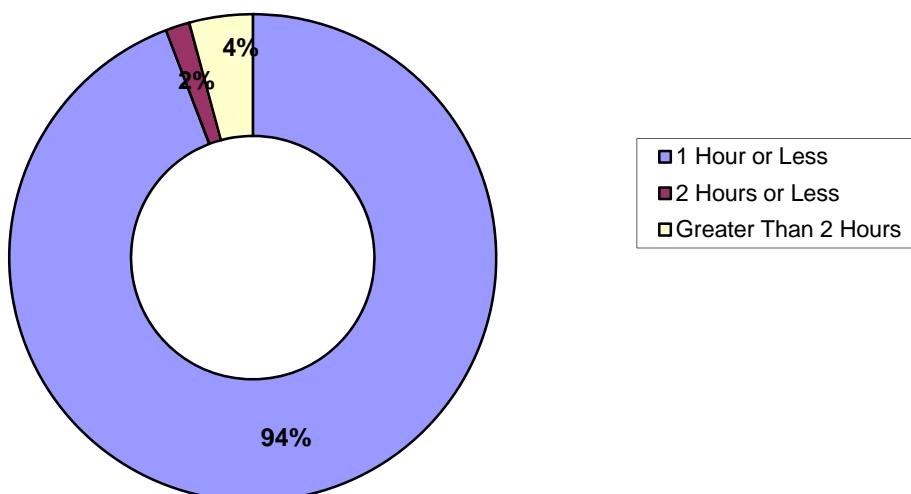

Public Health continues to work with Rumpke personnel and other agencies to identify measures to minimize the occurrence of off-site odors as much as possible. Additional efforts and odor control technologies continue to be evaluated by Rumpke to better target identified odor sources.

Unannounced inspections, along with off-hour and weekend inspections continue in order to monitor the facility during all complaint times.

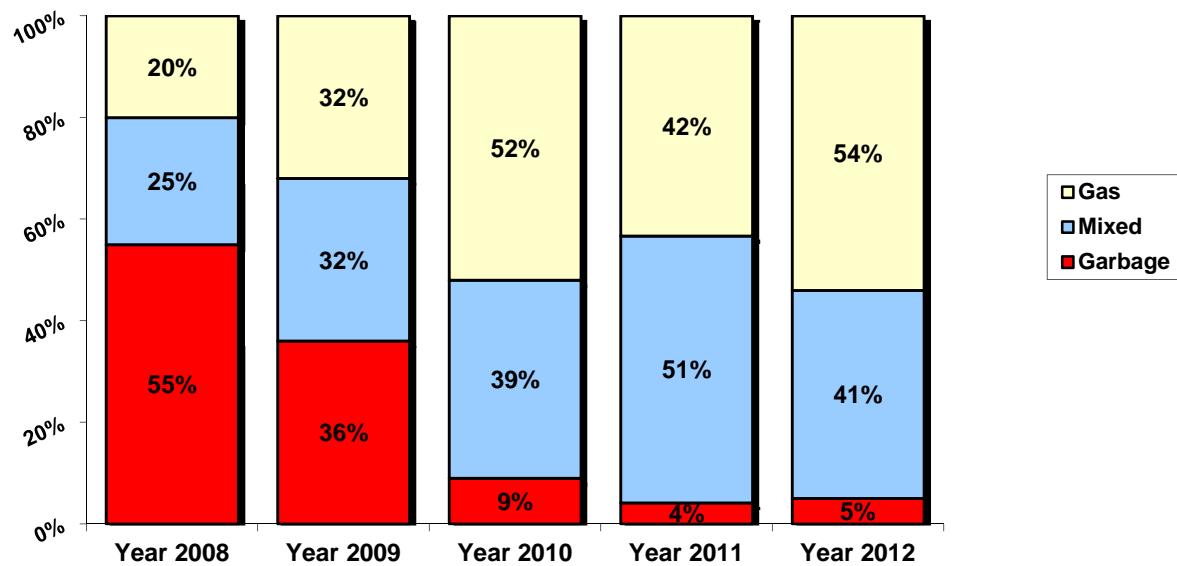

The 24-Hour Odor Complaint Hotline and complaint response continues to allow for the rapid investigation of odor complaints associated with Rumpke Sanitary Landfill.

**Complaint Data:** See attached tables and graphs.

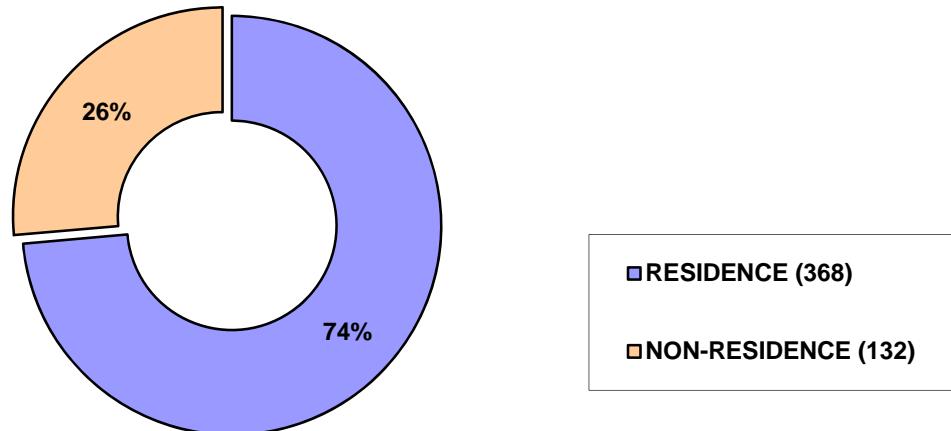

### Rumpke YTD 2012 Average Response Time

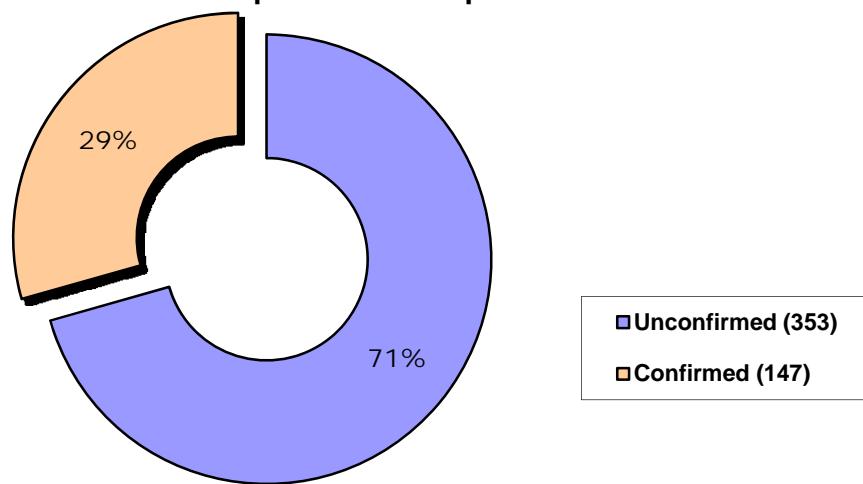

### Rumpke - Odor Type Comparison - By Year 2008 - 2012

**Rumpke YTD 2012  
Complaints At Residences vs. Non-Residences**

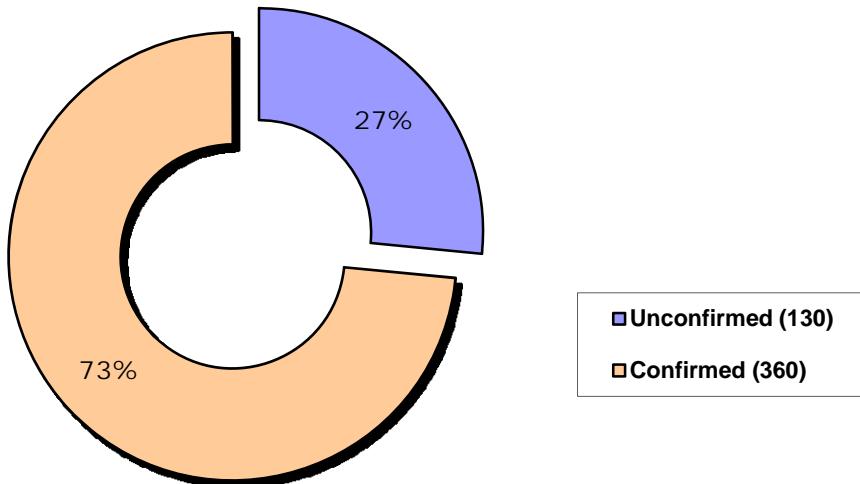

**Rumpke YTD 2012  
Confirmed Odor Complaints At Complaint Location \***

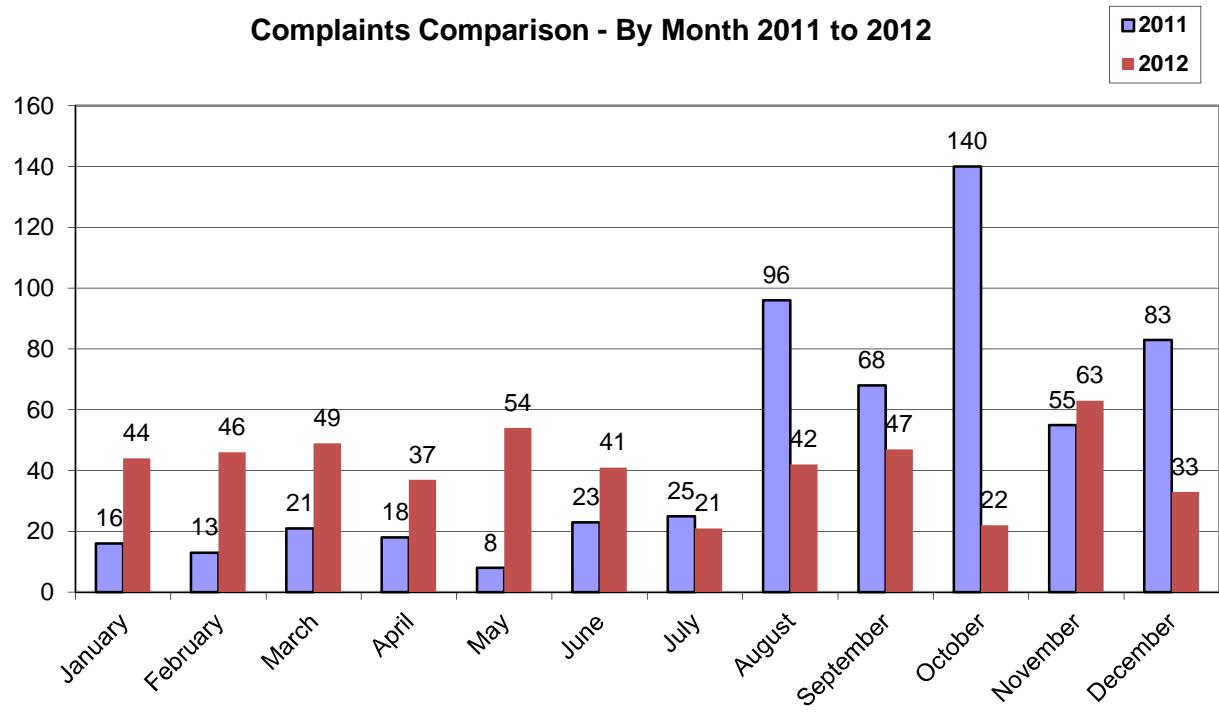

\* This graph depicts odor complaints confirmed specifically at the complaint location.  
Complaints confirmed by either the initial or follow-up responder are included.

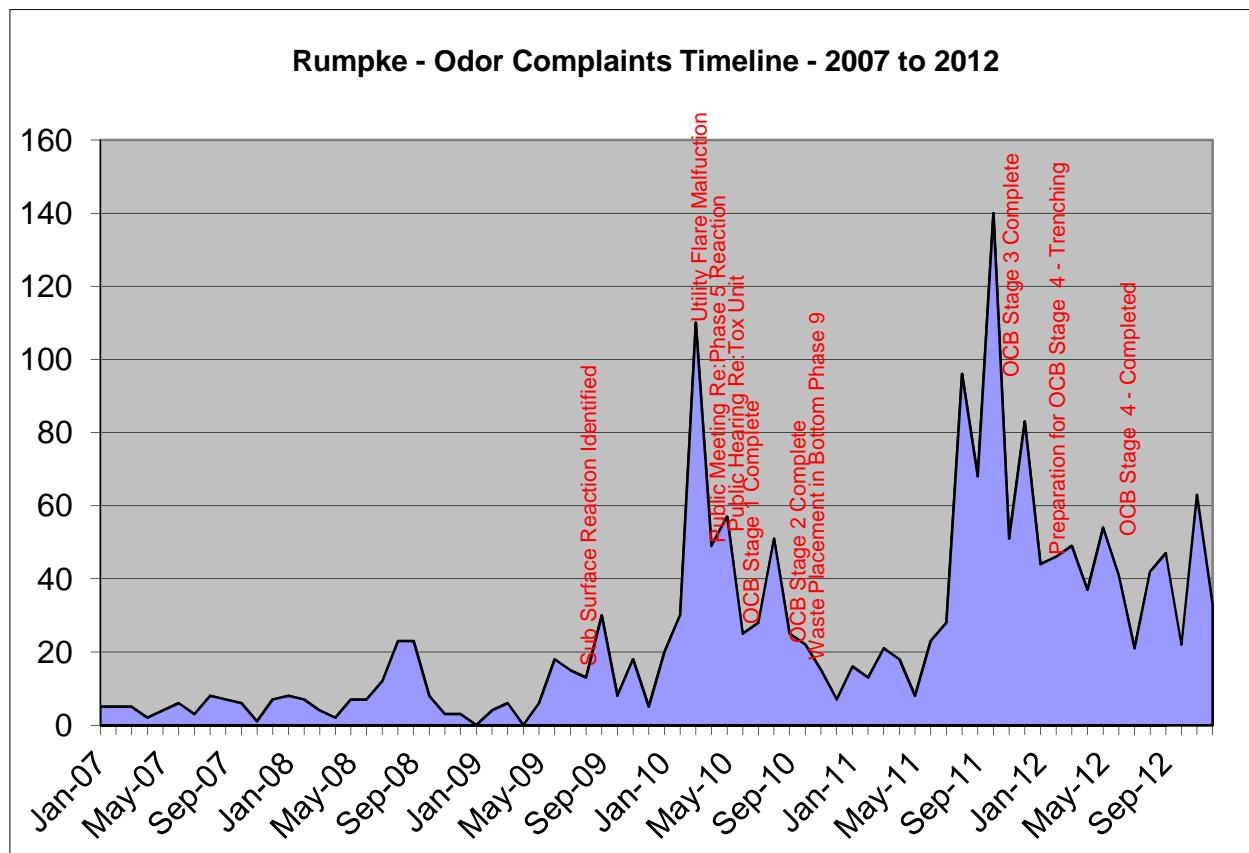

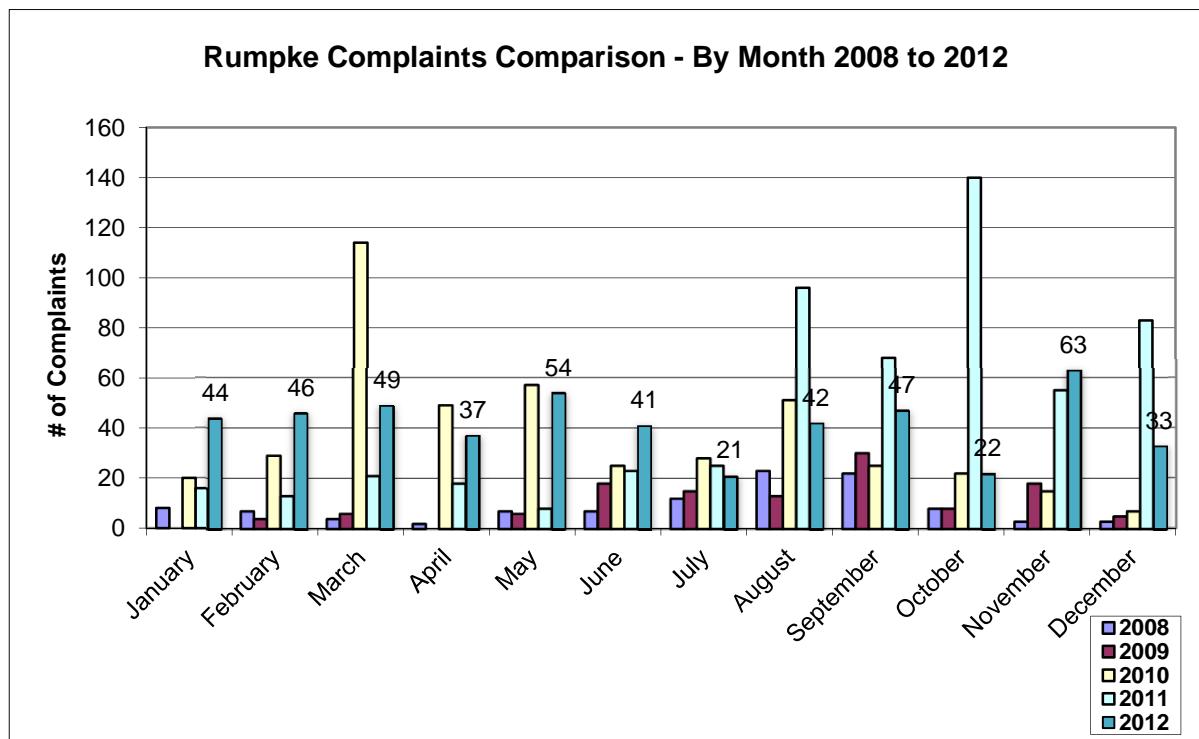

**Rumpke YTD 2012**  
**Confirmed Odor Complaints by Rumpke\***

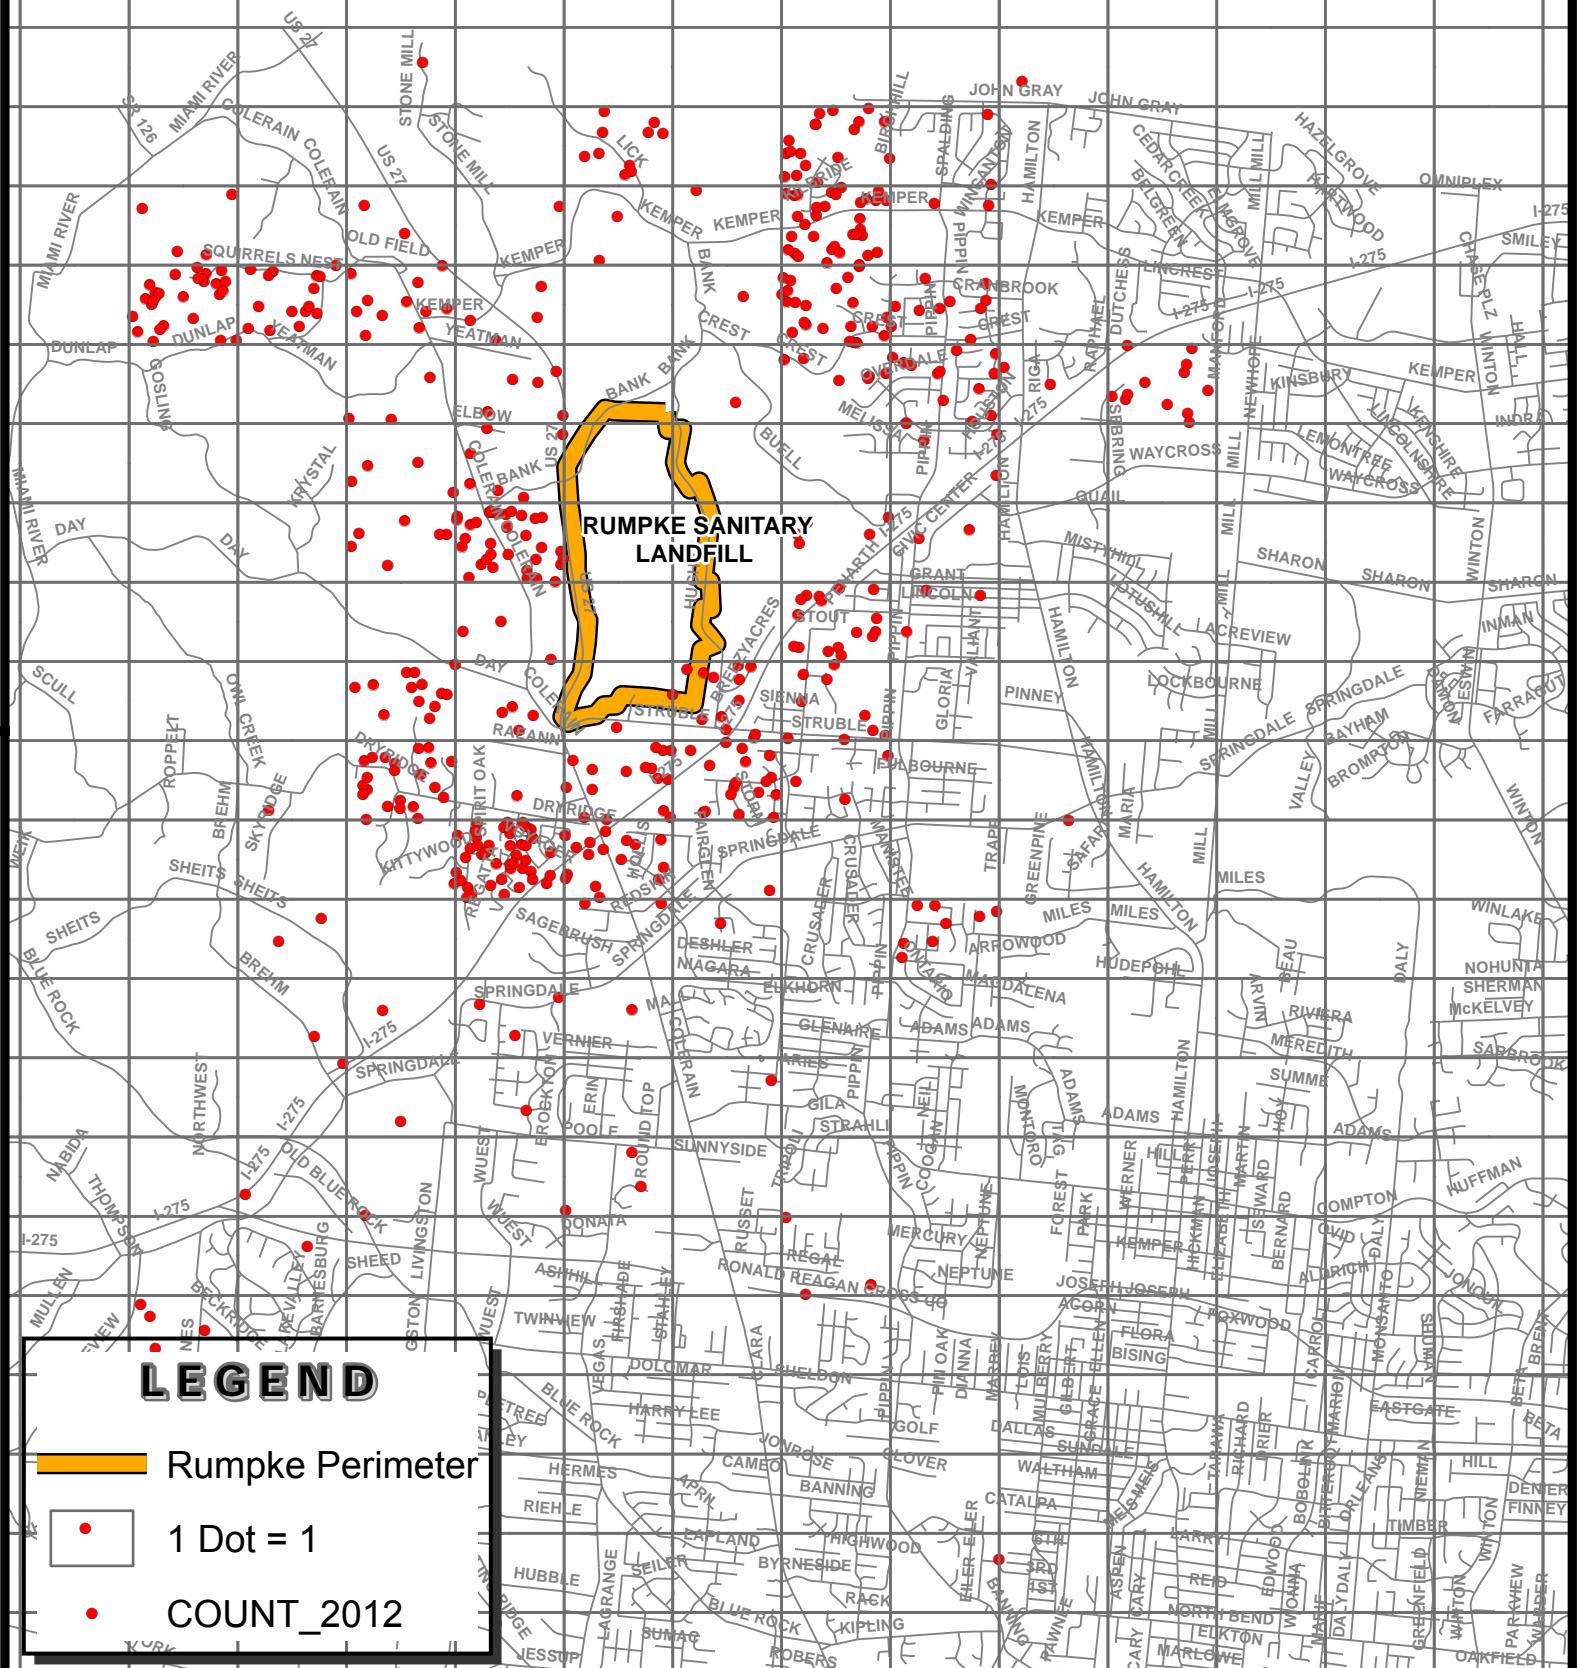

\* This graph depicts all odor complaints confirmed offsite, by Rumpke.

**Complaints Comparison - By Month 2011 to 2012**
