### **Hamilton County Public Health Announces**

#### **Clean Kitchen Award Winning Facilities**

**Hamilton County, OH.....**We've all heard the adage: "clean enough to eat off of the floors." Well, floor dining might not be the best idea, however, when it comes to clean, Hamilton County's "Clean Kitchen Award" winners are the best-of-the-best in maintaining safe food service operations.

"We started the Clean Kitchen Award to recognize food service facilities in the County that are exemplary in maintaining clean, well-cared-for and ultimately, safe environments for serving food," according to Greg Kesterman, Hamilton County Public Health assistant commissioner. "Since we began issuing the award in 2011, it has really become popular with the County's food service operations and we are seeing applications increase nearly every month."

## NEWS

The requirements for receiving a Clean Kitchen Award are stringent. To be considered, facilities must:

- Have fewer than three violations in the previous two years prior to applying;
- Have no “critical” or repeat violations in the previous two years;
- Maintain at least two staff members with Level I Food Handler certification or at least one staff member with a current ServSafe certificate;
- Submit applications along with corresponding documentation;
- Have a minimum of two years of inspection data on file with Hamilton County Public Health.

“The award is a real honor for our operators,” Kesterman adds. “It’s not easy to come by and they are diligent in maintaining sanitary operations. If you are out and about and find one of our awards displayed in a restaurant or other food service facility, you can be sure that these operators take sanitation very seriously,” he says.

Inspection data for all food service facilities, as well as Clean Kitchen Award winners is available on the Hamilton County Public Health website at [www.hamiltoncountyhealth.org](http://www.hamiltoncountyhealth.org). The Clean Kitchen Award reflects inspection data from the previous two years and is not necessarily indicative of current conditions.

Following is the list of winning operators for the first half of 2012:
