Hamilton County Public Health Announces Second Quarter 2015 Clean Kitchen Award Winning Facilities

Hamilton County, OH..... According to the Centers for Disease Control and Prevention, one in six Americans (48 million people) become ill each year by consuming contaminated food and beverages, 128,000 are hospitalized and 3,000 die of foodborne diseases.

"Food service facilities have huge responsibilities when it comes to protecting public health," according to Greg Kesterman Assistant Hamilton County Health Commissioner. "Most of the foodborne illness we see is preventable. That's why we put so much effort into our education and inspection program with the food service facilities we serve," he adds.

"The Hamilton County Public Health *Clean Kitchen Award* recognizes the best-of-the-best in maintaining safe food service operations," Kesterman adds. "The award is not easy to receive. When you see one on display, it points to an operator that takes the responsibility very seriously.

The requirements for receiving a Clean Kitchen Award are stringent. To be considered, facilities must:

- Have fewer than three violations in the previous two years prior to applying;
- Have no "critical" or repeat violations in the previous two years;
- Maintain at least two staff members with Level I Food Handler certification or at least one staff member with a current ServSafe certificate;
- Submit applications along with corresponding documentation;

NEWS

- Have a minimum of two years of inspection data on file with Hamilton County Public Health.

Inspection data for all food service facilities and listings for all Clean Kitchen Award winners are available on the Hamilton County Public Health website at www.HCPH.org. The Clean Kitchen Award reflects inspection data from the previous two years and is not necessarily indicative of current conditions.
