

What information will I find in the STS maps and inspection results table?

Upon searching for an address located within Hamilton County in the map below, properties that have an STS will be displayed with a marker as follows:

Mechanical STS will be displayed with a **Red Circle**

Non-Mechanical STS will be displayed with a **Yellow Circle**

Commercial (Semi-Public) STS will be displayed with a **Black Circle**

By clicking on one of the markers a pop-out window will appear containing the following information:

Address of System Location:	The address of where the STS is located.
Jurisdiction:	The political jurisdiction the STS is located within.
System Type:	The type of system located at the address.
Installation Date (if known):	The date the system was installed, if known.
Next Inspection Type:	The next type of scheduled inspection.
Date Inspection was Approved:	The date the current inspection was approve. (If blank the system was disapproved at the previous inspection.)
Previous Inspection Type:	The type of inspection previously performed.
Previous Inspection Date:	The date of the prior inspection.
System Specification Sheet:	A link to helpful information about the STS at the address.
Last Inspection Date:	The date the system was last inspected.
Last Inspection Type:	The last type of inspection.
Inspector Comments:	Inspector comments and corrective actions needed.
Inspector Comments (Cont.):	Continuation of the inspector comments and corrective actions needed.
Operation Permit Type:	Mechanical (Residential Systems with Mechanical Components), Non-Mechanical (Residential Systems without Mechanical Components), Semi Public (Commercial Systems with/without Mechanical Components), NPDES (Residential Systems that have a National Pollutant Discharge Elimination System Permit)
Inspection Results:	System observations at time of last inspection
Inspection Results (Cont.):	Continuation of system observations at time of last inspection
Manufacturer's Website:	Sewage Treatment System manufacturer's Website (if available)
Corrective Action:	Action(s) to take to bring system into compliance
Corrective Action (Cont.):	Continuation of the action(s) to take to bring system into compliance
